Professional Summary

A results-oriented Frontend Engineer with over 4 years of experience specializing in building and optimizing scalable, high-performance web applications using React.js. Proficient in translating complex UI/UX designs into clean, maintainable, and responsive code. Passionate about creating seamless user experiences and collaborating in agile environments to deliver impactful software solutions.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
 - **Frameworks & Libraries:** React.js (Hooks, Context API), Redux, Zustand, Styled-Components, Tailwind CSS
 - **Tools & Platforms:** Git, Webpack, Babel, NPM, Jest, React Testing Library, Docker, Jenkins (CI/CD)
 - **APIs & Protocols:** RESTful APIs, GraphQL, Asynchronous Request Handling
 - **Methodologies:** Agile, Scrum, Responsive Web Design, Cross-Browser Compatibility
-

Professional Experience

Frontend Engineer | DataVibe Analytics | Bangalore, Karnataka, India *June 2021 - Present*

- Developed and maintained key user-facing features for a B2B SaaS analytics platform using React.js, TypeScript, and Redux, serving over 10,000 active users.
- Collaborated closely with a team of 5 backend engineers, 2 UI/UX designers, and product managers to translate complex requirements and wireframes into pixel-perfect, functional components.
- Wrote comprehensive unit and integration tests using Jest and React Testing Library, increasing code coverage by 40% and reducing post-deployment bugs by 15%.

Software Engineer | TechSolutions Global | Bangalore, Karnataka, India *July 2019 - May 2021*

- Contributed to the development of a customer relationship management (CRM) portal using React.js, handling complex state and asynchronous API calls.
 - Refactored legacy class-based components to modern functional components with React Hooks, improving code readability and maintainability.
 - Implemented responsive designs with CSS3 Flexbox and Grid, ensuring a consistent user experience across desktop, tablet, and mobile devices.
 - Troubleshooted and resolved production issues by debugging JavaScript and React code, interacting with RESTful APIs, and analyzing network requests.
-

Personal Projects

KanbanFlow - Project Management App | github.com/priyadev/kanbanflow

- A personal project built to demonstrate modern frontend skills, featuring drag-and-drop task management.
 - **Tech Stack:** React.js, TypeScript, Zustand for state management, Styled-Components, and Firebase for backend services.
 - Implemented features like user authentication, real-time database updates, and a fully responsive interface.
-

Education

Bachelor of Engineering (B.E.), Computer Science Visvesvaraya Technological University (VTU), Bangalore 2015 - 2019
